TESTING CENTER

The Testing Center will move to temporary quarters in the Russell Building #7 Rooms 144 and 142 while renovations are completed in the Library Building #3. We will be closed during the first two weeks of June 2023 to complete that move, but we will re-open for our normal testing hours of Monday - Friday, 8:30AM-4:30PM once the move is completed. We expect to be in this temporary location for approximately one year after which we will return to our original location in Room 014 of the Library Building.

The Testing Center supports students and faculty by providing a professional testing environment where we offer make-up testing as approved by course instructors for both OCC and Kean-Ocean, Credit by Exam including CLEP and locally developed and approved tests for credit, high school equivalency exams and Accuplacer placement tests for English, mathematics and Pre-Calculus/Calculus. We partner with Disability Services to provide accommodation testing for OCC and Kean-Ocean, Workforce and Professional Education, The School of Nursing, virtual and distance learning institutions, and test vendors to administer and proctor various academic tests, skills- and competency-based tests and professional certifications.

See the OCC Policy for Credit for Prior Learning (https://www.ocean.edu/wp-content/uploads/2022/08/5140-Policy-and-Procedure-8.25.22.pdf) here. The list of CLEP exams and corresponding credits accepted at OCC is included with this policy as Attachment A.
