

# STUDENTS AFFAIRS

---

Student Affairs at Ocean County College is based on a developmental model that fosters professionally guided self-exploration, which encourages the student to assess personal needs, values, interests and skills. Although self-understanding is a lifelong quest, OCC provides a unique opportunity to assist students in generating clear alternatives in academic, career and personal decision-making that will determine the direction of one's life.

Student Affairs provides many professional support systems to meet the needs of the diverse student population.
