

CAREER SERVICES

The Career Services Department at Ocean County College is dedicated to empowering students with the resources, guidance, and support needed to achieve their career goals. Through group career counseling sessions, job search assistance, and resume-building workshops, the department helps individuals explore career pathways, develop professional skills, and connect with potential employers. Whether students are seeking work based learning opportunities, such as externships and internships, or full-time employment after graduation, Career Services provides the tools and strategies necessary to navigate the ever-changing job market successfully.

In addition to advising sessions, the department hosts career fairs, networking events, and employer panels to bridge the gap between students and industry professionals. It also offers access to online job boards and career readiness programs to enhance employability. By collaborating with local businesses, workforce development initiatives, and academic departments, Career Services ensures that students are well-prepared for their chosen fields, fostering career success and lifelong professional growth.
