

WORKFORCE DEVELOPMENT AND STRATEGIC PARTNERSHIPS

The Workforce Development and Strategic Partnerships division of Ocean County College focuses on providing education and training programs that align with local and regional workforce needs. It offers career-focused certifications, professional development courses, and customized training solutions for businesses, aiming to equip individuals with the skills necessary for in-demand jobs. The division collaborates with employers, government agencies, and community organizations to create strategic partnerships that support economic growth and workforce readiness. Through initiatives in allied health, technology, and other high-demand fields, it serves as a bridge between education and employment, ensuring students and professionals gain relevant skills for career advancement.
